## Application for student enrolment form

#### INSTRUCTIONS

Please refer to the Application to enrol in a Queensland state school information sheet at the end of this form when completing this application. Completion and submission of this application form to the school does not confirm enrolment. The school will notify you of the outcome of your application as soon as practicable.

Failure or refusal to complete those sections of the form marked with an (\*) or to provide required documentation may result in a refusal to process your application. These questions and your consent are considered necessary to ensure the school can undertake its administrative and care responsibilities.

Sections of the form not marked (\*) are optional. However, failure to complete these sections may result in the school not being eligible for important Federal and State Government funding reliant on such information. Parents of all students in Australia have been asked to provide information on their family background as part of a national initiative towards providing an education system that is fair to all students, regardless of their background. The required information includes the Indigenous status and language background of the student, and the education, occupation and language background of the parents.

If you have any questions about the enrolment form or process, or require assistance completing this form, including translation services, please contact the school in the first instance.

#### PRIVACY STATEMENT

The Department of Education (DoE) is collecting the information on this form for the purposes outlined in the *Education (General Provisions) Act 2006* (Qld) (EGPA 2006), and in particular for:

- i. assessing whether your application for enrolment should be approved
- ii. meeting reporting obligations required by law or under Federal State Government funding arrangements
- iii. administering and planning for providing appropriate education, training and support services to students
- iv. assisting departmental staff to maintain the good order and management of schools, and to fulfil their duty of care to all students and staff
- v. communicating with students and parents.

This collection is authorised by ss. 155 and 428 of the EGPA 2006. DoE will disclose personal information from this form to the Queensland Curriculum and Assessment Authority when opening student accounts, in compliance with Part 3 of the Education (Queensland Curriculum and Assessment Authority) Act 2014 (Qld).

Personal Information from this form will also be supplied to Centrelink in compliance with ss.194 and 195 of the Social Security (Administration) Act 1999 (Cth). De-identified information concerning parents' school and non-school education, occupation group and main language other than English and students' country of birth, main language other than English, gender and Indigenous status, is supplied to the Australian Government Department of Education in compliance with Federal – State Government funding agreements.

Personal information collected on this form may also be disclosed to third parties where authorised or required by law. Your information will be stored securely. If you wish to access or correct any of the personal information on this form or discuss how it has been dealt with, please contact the school in the first instance. If you have a concern or complaint about the way your personal information has been collected, used, stored or disclosed, please also contact the school in the first instance.

## Application to enrol in a Queensland state school

# This sheet contains information on how to complete the Application for student enrolment form (SEF-1 Version 8).

#### Entitlement to enrolment

Under the *Education (General Provisions) Act* 2006 (*Qld*) a state school must enrol a prospective student if they are entitled to enrolment. While not exhaustive, the following matters may affect a prospective student's entitlement to enrol in a state school:

- if the school has a School Enrolment Management Plan or an Enrolment Eligibility Plan (enrolment is subject to eligibility under the plan)
- the applicant is a prospective mature age student (the applicant can only apply for enrolment at a mature age state school and will be subject to a satisfactory criminal history check, or as a student in a program of distance education. All prospective mature age students must have a remaining allocation of state education.)
- the prospective student is not of correct age for enrolment (relates to Preparatory Year and Years 1 to 6)
- the prospective student has been excluded, or is subject to suspension from a state school at the time of the application
- the school principal reasonably believes that the prospective student presents an unacceptable risk to the safety or wellbeing of members of the school community (application is referred to the Director-General)
- the school is a state special school and the prospective student does not meet the criteria for enrolment in a special school
- the proposed enrolment requires approval as part of a flexible arrangement under s.183 of the Education (General Provisions) Act 2006 (Qld), and the arrangement has not yet been approved
- the prospective student is not an Australian resident or citizen or the child of an Australian permanent resident or citizen (visa restrictions may apply, fees may be charged, in some cases legislation requires that the prospective student must obtain approval from the Chief Executive via Education Queensland International (EQI) to enrol)
- the school does not offer the year level that the prospective student should be enrolled in
- the prospective student has no remaining semester allocation of state education.
   Enrolment cannot proceed until additional semesters are applied for by the prospective student (or parent on their behalf) and granted.

#### **Prospective student**

A prospective student is a person who has applied to enrol at a state school but who has not yet been accepted for enrolment.

#### Parent's occupation and education

All parents across Australia, no matter which school their child attends, are asked to provide information about family background (answering this question is optional). The main purpose of collecting this information is to promote an education system which is fair for all Australian students regardless of their background.

#### **Court Orders**

Any court orders concerning the prospective student's welfare, safety or parenting arrangements should be provided to the school, and the school should also be provided with any new or updated orders.

#### Name on enrolment form

A prospective student should be enrolled under their legal name as per their birth certificate. There is provision to also record a preferred family and/or given name. The preferred name will be used on internal school documents such as class rolls. The legal name will appear on semester reports unless there is a specific request to use the preferred name only. This request can come from parents/carers or the student (if the student is independent/mature age).

#### Gender

Information about gender is supplied to the Federal Government to comply with State funding agreements. The gender category with which a person identifies may not match the sex they were assigned at birth. There is no requirement for a student's gender recorded on this form to align with the sex shown on their birth certificate or passport.

#### **Religious Instruction**

Religious instruction is a program approved and provided by a religious denomination or religious society. Other instruction relates to part of a subject area that has been covered within the curriculum and may include, but is not limited to, personal research and/or assignments, revision of class work, and wider reading. Information about religious instruction available at the school, and about other instruction, is provided by the school at the time of enrolment and on the school's website.

# Introduction to the State School Consent Form (attached) for GLADSTONE WEST STATE SCHOOL

This letter is to inform you about how we will use your child's personal information and student materials. It outlines:

- what information we record
- how we will use student materials created during your child's enrolment.

Examples of personal information which may be used and disclosed (subject to consent) include part of a person's name, image/photograph, voice/video recording or year level. Your child's student materials:

- are created by your child whether as an individual or part of a team
- may identify each person who contributed to the creation
- may represent Indigenous knowledge or culture.

## Purpose of the consent

It is the school's usual practice to take photographs or record images of students and occasionally to publish limited personal information and student materials for the purpose of celebrating student achievement and promoting the school and more broadly celebrating Queensland education.

To achieve this, the school may use newsletters, its website, traditional media, social media or other new media as listed in the 'Media Sources' section below.

The State School Consent Form may, at your discretion, provide consent for personal information and a licence for the student materials to be published online or in other public forums. It also allows your child's personal information and student materials to be presented in part or alongside other students' achievements.

The school needs to receive consent in writing before it uses or discloses your child's personal information or student materials in a public forum. The attached form is a record of the consent provided.

It should be noted that in some instances the school may be required by the *Education (General Provisions) Act 2006* or by law to record, use or disclose the student's personal information or materials without consent (e.g. assessment of student materials does not require further consent).

## Voluntary

There will not be any negative repercussions for not completing the State School Consent Form or for giving limited consent. All students will continue to receive their education regardless of whether consent is given or not.

## Consent may be limited or withdrawn

Consent may be limited or withdrawn at any time by you.

If you wish to limit or withdraw consent please notify the school in writing (by email or letter). The school will confirm the receipt of your request via email if you provide an email address.

Queensland Government If in doubt, the school may treat a notice to limit consent as a comprehensive withdrawal of consent until the limit is clarified to the school's satisfaction.

Due to the nature of the internet and social media (which distributes and copies information), it may not be possible for all copies of information (including images of student materials) once published by consent, to be deleted or restricted from use.

The school may take down content that is under its direct control, however, published information and materials cannot be deleted and the school is under no obligation to communicate changes to consent with other entities/ third parties.

#### Media sources used

Following is a list of online and social media websites and traditional media sources where the school may publish your child's personal information or student materials subject to your consent.

- School website: <u>www.gladstonewestss.eq.edu.au</u>
- Facebook: www.facebook.com/GladstoneWestStateSchool
- YouTube: [Not Applicable]
- Instagram: Not Applicable]
- Twitter: [Not Applicable]
- Other: [Skoolbag App]
- Local newspaper
- School newsletter
- Traditional and online media, printed materials, digital platforms' promotional materials, presentations and displays.

The State School Consent Form does not extend to P&C run social media accounts or activities, or external organisations.

#### Duration

The consent applies for the period of enrolment or another period as stated in the State School Consent Form, or until you decide to limit or withdraw your consent.

During the school year there may be circumstances where the school or Department of Education may seek additional consent.

#### Who to contact

To return a consent, express a limited consent or withdraw consent please contact [Administration Staff, Phone 07 49797333 or email admin@gladstonewestss.eq.edu.au].

[The Principal] should be contacted if you have any questions regarding consent.

Please retain this letter for your records and return the signed consent form.

## ICT responsible use procedure

## Purpose statement

- Information and communication technology (ICT), including access to and use of the internet and email, are essential tools for schools in the provision of innovative educational programs.
- Schools are constantly exploring new and innovative ways to incorporate safe and secure ICT use into the educational program.
- School students, only with the approval of the principal, may be permitted limited connection of personally-owned mobile devices to the department's network, where this benefits the student's educational program.

## Authorisation and controls

The principal reserves the right to restrict student access to the school's ICT services, facilities and devices if access and usage requirements are not met or are breached. However restricted access will not disrupt the provision of the student's educational program. For example, a student with restricted school network access may be allocated a stand-alone computer to continue their educational program activities.

The Department of Education monitors access to and use of its network. For example, email and internet monitoring occurs to identify inappropriate use, protect system security and maintain system performance in determining compliance with state and departmental policy.

The department may conduct security audits and scans, and restrict or deny access to the department's network by any personal mobile device if there is any suspicion that the integrity of the network might be at risk.

## Responsibilities for using the school's ICT facilities and devices

- Students are expected to demonstrate safe, lawful and ethical behaviour when using the school's ICT network as outlined in the <u>Student Code of Conduct</u>.
- Students are to be aware of occupational health and safety issues when using computers and other learning devices.
- Parents/guardians are also responsible for ensuring students understand the school's ICT access and usage requirements, including the acceptable and unacceptable behaviour requirements.
- Parents/guardians are responsible for appropriate internet use by students outside the school environment when using a school-owned or school-provided mobile device.
- The school will <u>educate students</u> (DoE employees only) regarding cyber bullying, safe internet and email
  practices, and health and safety regarding the physical use of ICT devices. Students have a responsibility
  to adopt these safe practices.

Use of the school's ICT network is secured with a user name and password. The password must be difficult enough so that it cannot be guessed by other users and is to be kept private by the student and not divulged to other individuals (e.g. a student should not share their username and password with fellow students).

- Students cannot use another student's or staff member's username or password to access the school
  network. This includes not browsing or accessing another person's files, home or local drive, email or
  accessing unauthorised network drives or systems. Additionally, students should not divulge personal
  information (e.g. name, parent's name, address, phone numbers), via the internet or email, to unknown
  entities or for reasons other than to fulfil the educational program requirements of the school.
- Students need to understand that copying software, information, graphics or other data files may violate copyright laws without warning and be subject to prosecution from enforcement agencies.

## Acceptable/appropriate use/behaviour by a student

It is acceptable for students while at school to:

- use mobile devices for:
  - assigned class work and assignments set by teachers
  - developing appropriate literacy, communication and information skills
  - authoring text, artwork, audio and visual material for publication on the intranet or internet for educational purposes as supervised and approved by the school
  - conducting general research for school activities and projects
  - communicating or collaborating with other students, teachers, their parents or experts in relation to school work
  - accessing online references such as dictionaries, encyclopaedias, etc.
  - researching and learning through the department's eLearning environment
- be courteous, considerate and respectful of others when using a mobile device
- switch off and place out of sight the mobile device during classes, when these devices are not being used in a teacher-directed activity to enhance learning
- use their personal mobile device for private use before or after school, or during recess and lunch breaks, in accordance with <u>Student Code of Conduct</u>
- seek teacher's approval where they wish to use a mobile device under special circumstances.

## Unacceptable/inappropriate use/behaviour by a student

It is unacceptable for students while at school to:

- use a mobile device in an unlawful manner
- download, distribute or publish offensive messages or pictures
- use obscene, inflammatory, racist, discriminatory or derogatory language
- use language and/or threats of violence that may amount to bullying and/or harassment, or stalking
- insult, harass or attack others or use obscene or abusive language
- deliberately waste printing and internet resources
- damage computers, printers or network equipment
- commit plagiarism or violate copyright laws
- ignore teacher directions regarding the use of social media, online email and internet chat
- send chain letters or spam email (junk mail)
- share their own or others' personal information and/or images which could result in risk to themselves or another person's safety
- knowingly download viruses or any other programs capable of breaching the department's network security
- use in-phone cameras inappropriately, such as in change rooms or toilets
- invade someone's privacy by recording personal conversations or daily activities and/or the further distribution (e.g. forwarding, texting, uploading, Bluetooth use etc.) of such material
- use the mobile phone (including those with Bluetooth functionality) to cheat during exams or assessments
- take into or use mobile devices at exams or during class assessment unless expressly permitted by school employees.

## Sign-off

Please note: Children from Prep to Year 3 inclusively are exempt from signing the student section below.

## Student:

I understand that the school's information and communication technology (ICT) services, facilities and devices provide me with access to a range of essential learning tools, including access to the internet. I understand that the internet can connect me to useful information around the world.

While I have access to the school's ICT services, facilities and devices: I will use it only for educational purposes; I will not undertake or look for anything that is illegal, dangerous or offensive; and I will not reveal my password or allow anyone else to use my school account.

Specifically in relation to internet usage, should any offensive information appear on my screen I will close the window and immediately inform my teacher quietly, or tell my parents/guardians if I am at home.

If I receive any inappropriate emails at school I will tell my teacher. If I receive any at home I will tell my parents/guardians.

When using email or the internet I will not:

• reveal names, home addresses or phone numbers - mine or that of any other person

• use the school's ICT service, facilities and devices (including the internet) to annoy or offend anyone else. I understand that my online behaviours are capable of impacting on the good order and management of the school whether I am using the school's ICT services, facilities and devices inside or outside of school hours.

I understand that if the school decides I have broken the rules for using its ICT services, facilities and devices, appropriate action may be taken as per the school's <u>Student Code of Conduct</u>, which may include loss of access to the network (including the internet) for a period of time.

I have read and understood this procedure/policy/statement/guideline and the Student Code of Conduct.

I agree to abide by the above rules/the procedure/policy/statement/guideline.

## Parent or Guardian:

I understand that the school provides my child with access to the school's information and communication technology (ICT) services, facilities and devices (including the internet) for valuable learning experiences. In regards to internet access, I understand that this will give my child access to information from around the world; that the school cannot control what is available online; and that a small part of that information can be illegal, dangerous or offensive.

I accept that, while teachers will always exercise their duty of care, protection against exposure to harmful information should depend upon responsible use by my child. Additionally, I will ensure that my child understands and adheres to the school's appropriate behaviour requirements and will not engage in inappropriate use of the school's ICT services, facilities and devices. Furthermore I will advise the school if any inappropriate material is received by my child that may have come from the school or from other students.

I understand that the school is not responsible for safeguarding information stored by my child on a departmentally-owned student computer or mobile device.

Queensland Government I understand that the school may remotely access the departmentally-owned student computer or mobile device for management purposes.

I understand that the school does not accept liability for any loss or damage suffered to personal mobile devices as a result of using the department's services, facilities and devices. Further, no liability will be accepted by the school in the event of loss, theft or damage to any mobile device unless it can be established that the loss, theft or damage resulted from the school's/department's negligence.

I believe \_\_\_\_\_\_ (name of student) understands this responsibility, and I hereby give my permission for him/her to access and use the school's ICT services, facilities and devices (including the internet) under the school rules. I understand where inappropriate online behaviours negatively affect the good order and management of the school, the school may commence disciplinary actions in line with this user agreement or the <u>Student Code of Conduct</u>. This may include loss of access and usage of the school's ICT services, facilities and devices for some time.

I have read and understood this procedure/policy/statement/guideline and the Student Code of Conduct.

I agree to abide by the above rules / the procedure/policy/statement/guideline.
